SPOTLIGHT

A new season started!

How was your spring vacation? I think some are satisfied with their work and others are not. Anyway a new season is starting, so let's exercise your mind and body positively!

By the way, the first grade students entered. I would like to give you freshmen a message.

"Maybe, you will have to work hard every day. You will get up early, study hard, live in contact with a lot of people. You may be tired someday. But please keep working! Don't stop and a happy result will be waiting for you. Even if you fail in something, don't mind and stand up. Well, the school life will be fun. Enjoy your life. Enjoy your life."

In fact this message is also for me (the writer). Yeah, let's live with energy!

Guess What!

Introduce "Taiko no Tatuzin"

I will introduce "Taiko no Tatuzin." It is a kind of rhythm game. J-pop, classical music and game sound etc, the player beats a drum to their rhythm. I think this is very interesting. Also, there are 4 degrees of difficulty - easy, normal, difficult and ogre. In case of changing degrees of difficulty, the points that we have to beat are increasing. So ogre is very difficult and hard to beat it with our arms. But, a beating point is according to the rhythm of the song. So we should try to listen to the music so that we get a good score. And this game is a good training for our arms. So if you play this game, you would get a sense of rhythms and great strong muscles of your arms. Let us play "Taiko no Tatuzin."

Interview with "Reinforcement of brain-power society (Noryoku kyoka kenkyu-kai)"

Q. May I have your name, please.

A. My name is Abe and I am a leader of the society.

Q. Why did you found the society

A. When I researched nanpre, a kind of puzzle, on the Internet, I found the game is effective for our brains.

Q. What is your purpose of the activity?

A. We will show tanguramu in school festival.

Q. Who do you want to play nanpre with?

A. I want to play it with our math teacher.

Q. Who do you want to join the society?

A. Students who can greet with a smile, who are polite and friendly.

Now we have finished our interview. Thank you very much!

Opinion

Do you do muscle training every day? It is a bad habit, if you say "Yes, I do." That's because it takes two days to develop muscle after muscle training. It is an abstract sentence and I will tell a detailed explanation from now. Muscle training means breaking muscles. Therefore, daily muscle training means breaking muscles every day. So this will make you weaker and it's necessary for you to recover muscles. Then muscle can develop. Have you known this? I think most people don't know that. In fact, there are a lot of knowledge you don't have about muscle training. You may be doing an inefficient training. I need someone who has only short training

time to learn about muscle.

Short Story

Until a man remembers (1)

"Where am I?", he said. He was shrouded in darkness. He heard the sound of a deep river.

He discovered that he was on a strange road at night. First of all, he started walking. He walked for a long time. He wanted to get home. Then a red car ran past him. "Yaaa!", he cried and fainted in terror.

He was shrouded in darkness and heard the sound again. He couldn't understand why he had fainted in terror and he was here again.

He discovered that he was in bed at home. It was already dark. He was relieved from the bottom of his heart. He thought that he had a nightmare. He was hungry, so he went to the refrigerator. No sooner had he opened the door than he fainted. There were some tomatoes in it.

Editor's Postscript

Hello! As you know, YS has been published for one year. Last year, it was not so easy for us to write manuscripts and to type them. But we decided to continue publishing YS this year, too. So, we hope you will look forward to YS and read it when you have the time.

At this point, all the classmates have served the chief editor. So, we want to turn over a new leaf and publish YS again. And this year, Ms. Kikuchi became our vice class teacher. She is an experienced English teacher. Therefore, we are going to ask her for advice.
