SPOTLIGHT

A few days ago, Hashimoto Tooru, the Mayor of Osaka, made a slip of his tongue and brought about much criticism. He said, "The American armed forces needs sexual services by women." Why did he say such a thing? I can't understand his mind. Anyway, he was demanded to apologize for the slip of his tongue. This happened because of his sharp tongue. I think that Japanese politicians may be fired every day because they are always exposed to the dangers of the media. But I hope that they will continue working hard. They have great power. So I want them to be careful about their comments and to change Japan.

Guess What!

Let me tell you about a book named "Makyu". It was written by Higashino Keigo, one of the famous writers in Japan. I'll show the summary of the book.

One day Kitaoka Akira, a high school student was killed. He was a catcher of a baseball team. After that, Suda, a pitcher who formed a battery with Kitayama was also killed and Suda's right hand was cut. There are many mysteries in the matter. For example, Kitayama and Suda left the same message before they died. The message was "Makyu". As I wrote, this word is the title of the book and an important key to solve the matter. The police tried to look for the criminal and work out a solution.

If you come to be interested in the book, please read it! I'm sure this book excites you!!

Interview with Mr. Akutsu

This time, I will introduce Mr. Akutsu, who is the coolest nice-guy in our school.

Q: I heard that you got married to Ms. Nakazawa. Is it right?

A: Ah...yes.

Q: Congratulations on your getting

married!

A: Thanks.

Q: Well, what causes you to marry her?

A: Nothing makes me decide to marry.

Q: It is false, isn't it?

A: No! When I realized that we associated with each other, I was married. Well, I was attracted by her beautiful style. I was not going to say that. But one day, Mr. Nakayama surprised me. He suddenly announced our marriage in front of all the junior high school students. I was upset by them. Anyway, please don't try to listen in detail any more.

Q: I see. I hear that you were the first person to establish the studying in the study center.

A: Yes. It's me. After the Inter-high-school, my classmates and I started to study in the study center until 11 PM. Mr. Someno always stayed with me even though he was just married. So I said, "Mr. Someno, we're all right even if you go home and please go home so that your family can feel relieved." I appreciated Mr. Someno.

Q: Thank you. This is the final question. Are you planning to invite me to the wedding ceremony?

A: No.

Q: Oh, my goodness! OK! Thank you very much, Mr. Akutsu!

A Boeing 787 started to fly

A Boeing 787 had been grounded until these days. But one of the planes operated by Ethiopian Airlines flew from Ethiopia to Kenya's capital on April 27. The plane was carrying a battery which is made by Mitubishi: Japanese company. The battery is the cause of grounding. Then some Japanese technology is used to make the plane. So Japan repaired it immediately in order not to be thought that Japanese technology is bad by other countries. After all 787 started flying but I think the term of grounding is not long enough. So I

am anxious about it. If they repaired it in a flurry, the same accident as this time would happen. I want them to spend more time than they spent this time to repair it before it returns.

Short Story

One day, a burglar broke into A's house. He stole all the things in her house while A was taking a bath. So A wore nothing then. Suddenly K came to A, and said "Fortunately there is a piece of cloth. Please wear this."

But A said "thank you, but a burglar must be thinking he stole all the things. If he knew there is one thing which he forgot to steal, he will be disappointed. I feel sorry for him. So give this to him soon."

K ran to him and she gave it to him.

"I make sure that I've given this to you."

"Thank you."

On saying so, he left. While running, he said

"What a stupid lady she is."

Editor's Postscript

We had a lot of examination about many subjects this week. For example, math, English, Japanese...etc. I enjoyed soccer very much in physical education class. But I missed to kick many times. So I want to be good at soccer more. On next Friday, we will have the sport event. We will play soccer and volleyball. So we practice soccer during every physical education class, but we have never practiced volleyball. However, we are sure of the victory. By the way, Mr. Kato, a student teacher, finished the two-week probation. I appreciate your hard work, Mr. Kato. I'm looking forward to meeting you again!!
